# SI YO ME PIERDO

## IF I AM LOST

**The novel about the 98 happiest and unknown days of Federico García Lorca's life in the golden Cuba of 1930**

Federico García Lorca disembarked in Cuba from New York in March 1930, invited to stay for a week. But it was more than three months before the Andalusian poet decided to return to Spain, intoxicated by Caribbean music and beauty, soneros and santeros, terraces and palm trees, white rum, sensuality and Malecon nights.

What did the poet do in "the happiest days of his life", as he defined his Cuban days? How did Cuba tinge Federico's work, his person and his destiny? "If I get lost," he warned his parents in a letter, "they should look for me in Cuba."

### KEY SELLING POINTS

- Victor Amela's delightful prose creates striking, fast-paced and highly engaging stories.
- One of the most thoroughly researched accounts of Lorca's life.

## SOMEDAY I'LL COME BACK FOR YOU

**A heart-wrenching mystery full of suspense and a protagonist we can't help but root for**

In 1982, when he was only three years old, Samir was abandoned by his mother on the beach of El Saler. She blindfolded him and told him: "don't move, I'll be right back". But he never did. No one knew why he did not return and the boy ended up in a juvenile center with no other identity than his name and a handful of memories. Samir grew up among orphans and the disinherited of the world, but with the determination to have a chance in life.

Thirty years after his mother forgot him on that beach, Samir is no longer a helpless child, but a captain of the Judicial Police of Valencia. However, his past will mysteriously come back to haunt him. The discovery of the body of a young woman, murdered hours before in the same spot where he had been abandoned as a child, does not seem to be a coincidence. The fact that it bore his name and phone number, either.

Captain Santos will start an investigation that will become a puzzle where the pieces of his and his mother's past will end up being fundamental to discovering the truth about that corpse. After all, deep down, Samir had always hoped that someday his mother would come back to look for him.

## IN THE LAKE

**Maria Barbal's latest novel after international recognition for Tàndem**

For Nora, a twelve-year-old girl, going on Sundays to the lake, a very beautiful and quiet place with changing colors, is a delightful experience. Except for Quim, who is five years old, everyone in the group that accompanies her is an adult. Each one of them harbors his or her own longings, and she observes them and does not always think she understands them, but on the last morning at the lake, as a result of a conflict between the grown-ups and Quim's daring, Nora will suddenly awaken from the dream of childhood.

**A heart-warming story about the remarkable bond between two unlikely friends, brought together in an era when Spain was completely divided**

For Benet and his siblings, living in the mountains of north-west Catalonia is a delicate balance between reverie and toil. The idyllic landscapes of the Lleida Pyrenees and Benet's youthful ambition to fall in love and make a living off his drawings give him plenty to dream about, but, like most people, he is forced to reconcile his hopes and dreams with the demands of reality and the expectations of his family. Caught in the middle of his parents' marital strife and constantly on the move to find work, Benet struggles to find his place in the world.

The delicate strings that hold Benet's life together will finally be blown apart by the onset of the civil war in 1936, when everything is turned upside down. However, in Benet's darkest hour, when he is reeling from an injury from the front, he will meet George, an outspoken Scotsman, whose friendship will be Benet's only consolation in his battle to overcome the physical and psychological trauma of war. Though fleeting, Benet's time together with George will leave a lasting impression on him, and he will carry the memory of his Scottish friend, and the war they fought in, with him forever.

## A TEA TO HEAL THE SOUL

**A touching story about the adventure of living.  
Based on a real story**

On his way to scatter his late brother's ashes, Tony chances to meet Kosei San, an old Japanese man living out his post-retirement days in a rustic, solitary cabin by the edge of a cliff. But this is not to say that Kosei San is at rest. His attention does not stray for long from the steep rock face battered by the winds. This scene of wild beauty in the Rocky Mountains is also a site chosen by many suicides to plunge into the other side of death. Even though he is growing blind, the old man can spot them from afar.

When he sees anyone walking toward the edge of the abyss with a melancholy gait and without guide or camera, he takes off running. He falls to his knees, speaks to the person, and begs them to first share a pot of tea in his cabin and to tell him their story before departing. Through this ceremony, the aged man warms the spirits of the would-be suicide while baking a dessert to evoke memories of childhood. At the end of each personal account, Kosei San reveals the song of the abyss, which whispers a powerful message about keeping on.

The victim's throat had been slit, and a symbol engraved with a knife on his chest. The notoriety of the Folch name and the cruelty of the murder demand a quick and discreet investigation, which is assigned to the inspector of the Mossos d'Esquadra (local police) Víctor Sanz Gimeno.

Sagi, the nickname by which everyone knows the inspector, along with the young journalist who discovers the body and who always seems to be one step ahead, will not only uncover the rivalries of the Folch family, but also a legend about a secret brotherhood dating back to the fifteenth century.

## THE RADIO OPERATOR

**Stories about the radio world, high sensitivity, shyness, and the act of speaking (or keeping quiet)**

"This is my most personal book, a narrative collection with the radio as its backbone. I started at the age of nine, when my father, an electrician, set up a home radio station for me. Thanks to the radio, I overcame my shyness. Since then, for more than forty years, I have spoken into the microphone almost every day.

I wanted to pay tribute to the radio and to the spoken voice, at a time when— thanks to podcasts— it is once again taking centre stage. Perhaps we are looking for an authenticity in the voice that neither images nor telecommunication have.

Perhaps the voice is the true mirror of the soul."

There is only one problem: this is a profession reserved for men and making a place for herself is almost impossible.

Thanks to her profession as a midwife, she often visits the Call, the Jewish quarter. There she meets Astruc, a Jewish boy from a line of doctors who wants to study medicine. They agree to share their knowledge: Francesca will teach him everything she knows about plants and he will give her access to his books. But medicine is not her only passion: Francesca is in love with Marti, her childhood friend, and with this love she will start her adult life, a fast-paced life full of obstacles, love, betrayals and passions.

## THE KEY TO THE STARS

**Two vibrant and luminous stories that intertwine, full of love, sex, friendship, humor, uprooting and motherhood**

In 2012, at the height of the Greek crisis, young Rebeca Benveniste is left all alone and on the verge of eviction. Her beloved nona, her grandmother, has passed away, and with her studies in Hispanic Philology she is unable to find a job to support herself. So she decides to travel to the small village of Alpartazgo, in the province of Zaragoza, where her Sephardic ancestors came from more than five hundred years ago. Among her meager luggage she carries the key that has been passed down from generation to generation and that probably opens the door of the house that her family had to abandon.

At the end of the 15th century, Vida Benveniste, daughter of the butcher in the Jewish quarter of Alpartazgo, befriends Leonor de Lanuza, a member of the most powerful local noble family. Both are intrepid and intelligent and do not accept the limitations that mark them professing different religions. ## HAMLET'S CRIMES

### **What will the reader find in The Crimes of Hamlet?**

I hope an entertaining story with a handful of rather creepy moments. I would define the book as mysterious, disturbing, atavistic... filled with very real and human personalities.

### **What inspired this book?**

My creative processes are strange. It's not a question of blood and guts, I don't usually write about those things. It's human nature, what we can't see and what haunts us. I think that's what usually inspires most of my work.

### **How was the process of building the main characters?**

My characters are free-ranging and evolve through the plot. I have to admit that sometimes I have an idea of them and then they do what they want. From there, I think I've tried to create characters as real as you or I can be.

### **And what was the creative process of The Crimes of Hamlet like?**

The setting is usually very important to me, I always try to draw clearly where things happen because, in that way, the reader experiences the story as if he or she were there. It happens to me and I want readers to feel the same way.

### **What is real about the characters and events described?**

Serial killers exist and their psychology and modus operandi is something known to everyone if you like this kind of stories. Many places in our country experienced tragedies, blood crimes and ghosts. Put it all together and you will have a nice story to tell. You don't need it to be real for the story to remind you of some strange event that happened near you. But one thing is certain: the sinister, the inexplicable and the dark have always existed.

### **What feelings or emotions do you think or hope The Crimes of Hamlet will leave the reader feeling?**

I'd like there to be a certain trepidation, fear; that moment of looking back with the strange sensation of hearing something when you're reading. But there is also a human side that I would like to reach the readers with. Every character is different; some are loved and some are hated, it's the same in real life. I would just like the reader to get into the story and live it.

### **As well as crime novels, you have also worked in other very different genres, such as romantic-erotic. How do the stories of one and the other coexist?**

I currently publish some stories on my blog, especially for those readers who are unconditional fans of erotic stories with an action plot. They are two different things, but with a common link; human nature in its purest state. It doesn't matter what you write, it doesn't matter what genre you cultivate; the setting, the passions, or even the madness are part of that human character that I try to capture.

### **How do you build your characters? What traits should a good literary protagonist have?**

Imperfection. I think it's important. Creating a perfect character doesn't make any sense and they must have their own will. I like them to disobey me and end up doing things I hadn't planned. They move forward with the plot and evolve on their own.

## IN THE BLOOD

From the author of the series *Sin retorno*, which has sold more than 80K copies in Spain, rights sold to Italy and Portugal, and is currently being adapted to the screen

Inspector Pieldelobo is still in the crosshairs of her superiors at the Pamplona police station after irregularities committed in the resolution of a triple murder case related to a powerful Opus Dei family.

A National Police operation against drug trafficking with infiltrated agents becomes complicated when the young Elur Amézaga is found murdered in Bera, a small town in Navarra very close to France. Elur is a police informer and girlfriend of a prominent local leader of the Basque nationalist party, and everything points to Inspector Fernando Ribas, Marcela's friend (as well as her lover and mentor when she joined the force more than ten years ago), as the culprit, but Marcela refuses to believe that Ribas, for all his faults, was also a corrupt policeman.

Determined to clear up what happened, Inspector Pieldelobo ignores both the anonymous blackmail and the indications of the police, who insist on closing the case as soon as possible, and the threats of the Abertzale environment, which does not want to be involved in a case related to drugs. Once again, she will follow her instinct and start a dangerous investigation against the clock that will put her life in danger in the foggy lands of the muga between France and Navarre.

# LA CIUDAD DE LOS MUCHACHOS

## THE BOYS' TOWN

### BASED ON REAL EVENTS

During Franco's dictatorship, La Ciudad de los Muchachos ("The Boys' Town") was put in place to house and educate the children orphaned by the Spanish Civil War.

Teresa Roig has carefully examined the lasting footprint of this unfortunate project, and now brings us a touching and alarmingly relevant novel. It is based on the testimony of those who lived in the Ciudad de los Muchachos during different years spanning the two decades that the facility ran its program, and on the documentation left behind on this and similar orphanages.

### In the author's own words:

"The Catalan 'Boys' Town' was intended as a revolutionary educational project, just like the original one that inspired the Hollywood film, but Franco's dictatorship turned it into a nightmarish orphanage.

The 'Social Aid Teaching Houses' were the regime's factory for 'the men of tomorrow', but their indoctrination not only destroyed the childhood of a multitude of war orphans, but also fed into transgenerational trauma.

We talk too much about patriarchy and too little about adultcentrism. When will we have a debate on the collective dictatorship we continue to force upon children, families, and schools?"

## KEY SELLING POINTS

- A radical view on the education of children and the dangers of child abuse, a problem that persists today.

Meanwhile, Alèxia's brother, Narciso, a disciple of the painter Ferrer Bassa, tries to find meaning in his artistic concerns. He and Caterina will start the Workers' House, a project aimed to promote new initiatives based on the abilities of each individual. Everyone will have a place and will learn and teach at the same time. Fire enlightens, but it also burns and leaves ashes. **BEA CAMPOS** was born in Valencia on August 5, 1970. She has two 5-year-old daughters and lives in Faura, a small town in Valencia. It all started when she was a child, immersed in an environment of mistreatment; she wanted nothing but to fill those voids with food. At that time, she was not aware of what she was doing: she was just a girl who did not know how to express herself and eating food was the only way she felt good. She studied engineering, nutrition and dietetics, focusing on the fabulous world of human nutrition. She has more than 20 years of experience helping people on their way to healthier habits.

**ANNA SIBEL** was born on August 17, 1975 in Torroella de Montgrí (Baix Empordà, Girona). She has a Master's Degree in Child, Adolescent and Adult Psychiatry and Psychology from the Valle de Hebrón Hospital in Barcelona. She was honoured with the National Psychiatry Award for her research, where she studied "factors related to obesity from a family-dynamic perspective". This study was published in books and scientific journals. She has been in charge of the amb2 Clinic for more than 22 years, working as a Psychopathologist and combining it as a researcher of clinical and educational articles (Editorial Laertes), a collaborator in different radio programs, broadcast magazines, speaking at conventions, workshops and symposiums.

## THE SMALL, BIG BOOK OF ANXIETY

### Baby steps in the path to taking charge of your anxiety

Nervousness, worry, panic. We have all been affected by anxiety at one time or another. Not in vain is one of the most common mental disorders in the West, which may present itself as a simple nuisance but sometimes becomes a huge black cloud that prevents us from living as we want.

Ferran Cases, an expert in anxiety, invites us to explore the patterns that lead us to feel it and teaches us how to change them. He does this in small and accessible steps, which the author represents in the form of a staircase of stages to overcome. Step by step, we will learn to breathe, to calm our inner voice and control catastrophic thoughts, to soak up the importance of physical exercise or mindfulness, to cultivate habits that allow us to keep moving forward.

The way out of anxiety is to know ourselves and redirect our way of interpreting the world, and we just have to have the courage to take the first step. In this new edition, completely revised and expanded, Cases includes new exercises and five additional steps that, based on the philosophical principle of Stoicism, will help us conquer the art of true happiness.

### KEY SELLING POINTS

- **Now on its second edition!**
- Ferran Cases is not only an expert in anxiety, but has suffered from it for most of his life, so his advice comes from a place of understanding and first-hand experience.
- He is also the creator of the popular BYE BYE ANXIETY method.
- His book THE BRAINS OF HAPPY PEOPLE has been sold to 8 territories and is a huge hit among readers.

**FERRAN CASES** (Barcelona, 1984) has spent all his time since the age of 16 trying to find a way to stop feeling anxiety, and during these years he has drawn two conclusions:

1. You have to know yourself well, to know who you are and what you need. What are the defects and potentials that form us? What are our likes and dislikes? And finally we must love and accept ourselves.
2. You have to follow a method that helps you step by step to get to point number one.

To reach these conclusions, during these years he has studied the ways of Chinese medicine, phytotherapy, Qi gong, Tai chi, coaching, NLP, energetic and natural nutrition and Buddhist psychology.

# SOY COMO COMO

## I AM WHAT I EAT

Spain's most renowned food journalist and health communicator tells us everything she knows about nutrition and health.

Join the thousands of followers of the healthy revolution with Núria Coll's advice.

Eating healthy is not difficult, but sometimes we get lost among so many facts and fad diets. It is not necessary to learn every new nutritional study; it would probably serve us better to stop and think a little. In this book of reflections and advice, the journalist specialized in healthy eating, Núria Coll, with ideas and thoughts that ultimately come from a place of common sense, proposes a clear objective: to awaken in the reader the ambition to have their own criteria so that they do not depend on what the gurus say they have to eat. This book is going to empower you to find your own way in your diet.

"When in 2014 I started in healthy eating outreach, I didn't have much knowledge, but in a short time I realized that, urgently, we needed to avoid many of the jars and packages that fill our pantries. In a matter of weeks I changed my eating habits radically, started eating healthy and learned something crucial: what was important was not just what to eat, but how."

# SEPARADA

## SEPARATED

### How to live a conscious separation while looking after your children

In this book, therapists Rocío and Miguel Ángel explain how to go through this emotionally complex process. Mother and father of two children each, they have both made conscious separations and together they have created a close-knit family. So they know that deciding to separate and then dealing with all the changes that come with it can be very painful. The fear of traumatising the children, the fear of the type of custody and not being able to see them whenever you want, or the appearance of a third person - all of these can be overwhelming and even paralysing. However, if the idea has been with you for a long time and you know that deep down it is your deepest desire, separation may be the best option.

Narrated with honesty and courage, you will also discover part of the authors' process of separation so that you can be inspired to separate in a conscious and responsible way. Because your children don't need you living together, they need you happy.

### KEY SELLING POINTS

- "**Separada** is a book that breaks taboos, that gives a hopeful look at a process as hard as a separation. It is the companion you need to heal wounds and begin your new journey".

Motherhood and fatherhood revolutionised their lives and they underwent a profound process of self-knowledge, which led them to found Creada, the project that helps mothers and fathers to take care of themselves and their children during separation or divorce. Through their social networks and media collaborations, they spread the message that when a couple's relationship ends, the family does not break up, but rather changes its shape, as happened to theirs, as each of them carried out a conscious separation and together they have formed a family.

## THE TOKEI METHOD

**Chronobiology for happiness: adapt your routine for a healthier life**

Thousands of years ago humans were harmonically connected to the natural cycles of the Earth, which brought health, energy and emotional wellbeing.

Currently we still depend on time, but no longer pay attention to our internal clocks, responsible for appetite, sleep, energy or fatigue. This results in cardiovascular problems, metabolic diseases such as obesity or diabetes, psychic disorders and in the worst cases a greater propensity to certain types of cancer.

Based on chronobiology, this method is a training to learn to listen to our bodies and reconnect with its rhythms. Its easy recommendations will help us synchronize our **tokei**, or internal clock, to enjoy a life full of optimism and health.

## BREAKFAST WITH PARTICLES

**Science like it's never been explained before**

Quantum theory is one of the most beautiful and amazing aspects of science. The rules it follows are crazy compared to our everyday lives: they're counter-intuitive. As we enter the quantum world, our beliefs about reality (even our day-to-day) are challenged.

Sonia Fernández-Vidal, writer and Doctor in Quantum Physics, and Francesc Miralles, writer and journalist, invite us to a fun breakfast to which Newton, Einstein, Heisenberg and other famous physicists of history are also invited. Among cupcakes, doughnuts, coffee and orange juice, we will undertake a fascinating and revealing journey to the origins of the universe.

We'll learn what a particle accelerator is for, what the God particle is, how things can be in two places at once... and we'll try to understand the mysteries of existence.

**This is the life story of a woman who was an innovator in her time but was made invisible by the men in her family**

The daughter of an Indian and a Catalan, Mercè Pàniker grew up in Barcelona in the 1920s and spent her adolescence in a boarding school in Nazi Germany, from where she returned at the outbreak of World War II. She studied chemistry at the University of Barcelona, and soon after a master's degree at the University of Leeds, where only four girls were enrolled among more than twenty boys. She was often the only woman in a man's world and always looked everyone in the face, without excusing herself, without asking permission.

When she returned to Barcelona, she took over the family business Paniker, S.A., a gluing company, and promoted a strong network of associations in the chemical sector. When her husband died suddenly, she had to take care of her four children alone. With the arrival of democracy, she became involved in the defense of women's freedoms and equality.

## DREAMING PEACE

**August 2021. Afghan storyteller and activist Nadia Ghulam, watching as the Taliban advance through her country, acts desperately to save her loved ones**

These pages were born from conversations between Nadia and the journalist Ariadna Oltra, in which they talked about how she and her relatives have lived in the year after August 2021, what she had to do to get part of her family to Spain, and what those who were unable to leave Kabul have seen. The story of one family is the reality of thousands of Afghans.

That August, the media bombarded us with shocking images of men falling off an aeroplane as they desperately tried to flee the occupation. Months later, none of us really knows what is happening there, nor how the people who were able to flee and who have found asylum in different parts of the world are faring.

# LA LEY DEL REFLEJO

## THE LAW OF REFLECTION

### How to pin down the self-deception that is the cause of your suffering

Self-deception is a trap that leads us away from the truth about ourselves. Perhaps the most popular version of the mechanisms of self-deception is the so-called "law of the mirror", although the metaphor is more accurate if we refer to the "law of reflection". This warns us of an old Spanish axiom: "as within, so without" or, in other words, the world is nothing but a huge mirror in which your conscience is reflected. The mirror reflects us, but we confuse what it shows us with our authentic identity.

This book will help you discover the projections that cause you suffering and how to work with them in order to live a life free of mirages.

### KEY SELLING POINTS

- A useful metaphor broken down into practical elements to help you live your most authentic self.
- Self-help tinged with philosophy and deep thought from an expert in the field of personal development.

### KEY SELLING POINTS

# ESTO NO SE DICE

## WE DON'T TALK ABOUT THAT

**A shocking and necessary account of one of the greatest evils we face**

After a childhood marked by sexual abuse, years of eternal bullying and a hypersensitivity that on many occasions brought him to the brink of suicide, Alejandro Palomas spins in these pages a serene and electrifying story with which he flies unfiltered over childhood memories, the unparalleled relationship with his mother, the shadow of a father who finally disappeared and the power of imagination and writing as the last plank of salvation. This is the most sincere testimony of a man who bet on living and who succeeded thanks to his passion for inventing and sharing worlds, always with tenderness and humor, and who now transforms his life into the greatest of stories.

Literature allowed him to create imaginary universes better than the life around him and over the years these fictions have helped him find the words to show the whole truth.

# EL HÁBITO HACE AL MONJE

## THE HABIT MAKES THE MONK

The popular Spanish saying goes, "the habit does not make the monk", but it is our habits and customs that shape the person we are

From the author of **TE AMARÁS SOBRE TODAS LAS COSAS**

We often think that it is the big events that will significantly change our existence and we forget that our life is a reflection of what we are living. Having a full life is possible through training. But, for that, it is necessary to learn some things and unlearn many others.

Sonia Rico's book offers a new way of looking at and going through your own life. The author, who is a yoga teacher, therapist and experienced coach, teaches us, through various resources, that we have all the conditions to be happy. We just have to train ourselves with small steps that we can take every day.

Buddha was not a God, nor a magical being. He simply developed powerful habits that helped him to take care of his body, his mind and his relationship with the world. Many of his teachings were passed down to Buddhist monks to be practiced daily. Best of all, you too can incorporate them into your life, so don't wait any longer... and get into the habit!

### KEY SELLING POINTS

- This book teaches you, in a practical and fun way, how you can transform yourself physically, mentally and spiritually.
- Do you feel unhappy at certain times? Do you live under stress or suffer from anxiety? Do your negative thoughts betray you? El hábito hace al monje, will help you overcome these obstacles that prevent you from living a fulfilling life.

# GANBATTE

## The Japanese philosophy for achieving your aims

Ganbatte is the philosophy of self-effort and connection to what one wants. The change you need in life is already in you, but you need to reach out to it yourself; find the path that will open your mind to be conscious about what you want. In Japan, right before an exam, students don't wish good luck to one another. They say Ganbatte! because getting where you want to be has nothing to do with luck. It's about the energy and the effort you devote to something that will help you reach your objectives.

This is not a regular new book, this is the brand-new concept that will take the world by surprise. It is something fresh and new that is perfect for the times we are living.

# WABI SABI PARA LA VIDA COTIDIANA

## WABI SABI FOR EVERYDAY LIFE

### The Wisdom of Imperfection

Dominated by stress, multitasking and perfectionism, our existence produces a huge amount of unhappiness, as this way of living moves us away from the essence of reality. Although it might seem like a contradiction, it doesn't help us get better results in the different areas of our lives either.

The ancient philosophy of Wabi-Sabi, which in Japanese means "the beauty of imperfection", is a totally different way –more intimate, natural and connected to nature– of caring for ourselves and growing through acceptance.

In the same way that in Japan a cup with irregularities, and even a crack, is considered more beautiful and valuable than a perfect, symmetrical and uniform one, the philosophy of Wabi-Sabi brings together three characteristics from nature: nothing is perfect (and it is lovely that it should be so); nothing is finished (we are always growing); and nothing is forever (the ephemeral nature of things and people is what gives them value).

### KEY SELLING POINTS

- Sold to 22 languages!
- Wabi Sabi is a concept that can revolutionize our lives in every area, making us more sensitive to beauty and more creative.

# MANEKI NEKO

## MANEKI NEKO

### The Japanese book of Good Fortune

The most popular Japanese symbol of good luck is Maneki Neko (招き猫), the figure of the cat with a raised paw that can be found all over the world today. There are different legends about its origin, but it is believed that the cat summons prosperity and fortune. In its right paw it holds a koban (小判), an ancient Japanese coin, and often wears a bell around its neck to ward off evil spirits.

This is just one of the many symbols and rituals that exist in Japanese culture to attract good luck and ward off calamity.

Shinto, the ancestral religion of Japan, has numerous rites to attract money, love or fortune, and Buddhism or the animist religions of territories such as Okinawa or Hokkaido have their own rituals. How does each of them work and what history or deep meaning underlies this belief? How can we summon good luck with our daily habits? This book explores all the tools (some magical, some practical) to attract fortune and fulfill our wishes.

In addition to learning these different rituals in an easy and inspirational way, the reader will explore the essence of good luck and how we can incorporate it into our lives with the appropriate habits and attitudes.

### KEY SELLING POINTS

- A fun new look into Japanese culture and the ways it can help us lead a more fulfilling life.

## TANTRUMS

**Don't focus on removing the tantrums, but on understanding them and using them to learn and grow**

All children have them and all parents have to deal with them. They are the famous tantrums, capable of upsetting even the most conscientious and respectful adult. Temper tantrums often bring out our worst side, and in those cases, sadness and a sense of failure are inevitable.

What if so much suffering is unnecessary? What if it is absurd to even think about putting an end to tantrums, because they are an essential aspect in the development of children? What if the key is you, your ability to be present and to bring awareness to the situation?

You may find this hard to believe, but tantrums offer a golden opportunity to learn and grow together. Miriam Tirado accompanies you in this process of learning, so that you can educate the little ones from another place, more serene, considerate and free of pain... even in the middle of a tantrum.

## BOUNDARIES

### How to educate with conscious limits and grow together

Miriam Tirado, one of the main referents of conscious upbringing and education, dedicates this book to one of the most important and, as we all know, most complicated aspects for mothers and fathers: limits, those red lines that protect the integrity of the little ones and allow them to share life with other people. How can we sustain conscious limits and agreed rules that provide structure and security to our children, how can we avoid falling into authoritarianism and arbitrariness or, on the contrary, into a lack of limits that lead children to feel fear, insecurity or to seek validation at all costs? With the generosity that characterizes her, Miriam Tirado shares her own doubts, learnings, challenges and achievements on the road to loving and responsible limits. A deeply personal work, which accompanies us with empathy and humor in the exploration of our own relationship with limits so that we are able, with the help of different exercises and tools, to provide children with coherent support.

For me, ambition is directly related to what we feel, to our emotions and desires.

Especially over the last few years, ambition has been a necessary energy to always go one step further in all areas of my life. My purpose with this book is to bring ambition closer to people, to bring it closer to you so that you too can activate that powerful energy that allows you to live with enthusiasm and determination.
