Mai Corland

Secrets built this republic; one truth could burn it down.

High Priestess Kerasea Vestal has spent her life hiding the truth—that she's the last surviving heir of the magical bloodline the republic slaughtered. One wrong step could be fatal. But when a senator is brutally killed and a temple blade is found at the scene, all eyes turn to her.

Praetorian Torren Morvane has made a career of dragging liars into the light, and Kerasea is the one person he's vowed to ruin. But locked on a mountain with a murderer, scheming senators, and a prophecy of death, he's forced to work at her side. The closer he gets, the more dangerous the truth—and their attraction—becomes.

With traitors closing in and a nation on the verge of shattering, Kerasea and Torren must risk everything to uncover the real killer... even if it means trusting their sworn enemy.

Nobody's Quest

Alyssa Day

The goddess needs a nobody. The prince needs a miracle. Soli Graymind might be both.

Soli has spent most of her life being invisible—an indentured servant, a library mold-scrubber, the girl no one sees unless she's in the way. So, when the king's guards show up with swords drawn, she assumes it's a mistake.

It's not.

Moments later, she's standing in the throne room while the king tells her she's been chosen to retrieve a set of ancient keys—only the keys can save the goddess and stop the chaos beyond the palace walls. Because the world isn't waiting to be saved.

It's already burning.

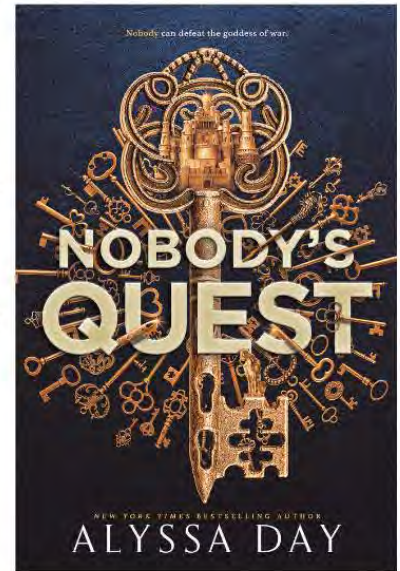

And beside him stands Prince Kaelen: devastatingly beautiful, mercilessly cold, and certain Soli won't survive the hard journey ahead.

He's probably right.

But Soli's survived a lifetime of hard everything. She may be a nobody—no training, no real power, and no idea why she was chosen—but she refuses to be expendable. Even if the quest ahead is anything but simple. When assassins, monsters, and impossible choices fracture the fragile alliance slowly building with the prince, Soli realizes she can't hide in the shadows anymore.

Because, for the first time in her life, she has something to lose...

A high-stakes romantasy filled with slow-burn romance, found family, and a heroine who never expected to be anyone's first choice.

Now Kierse is trapped at the heart of a centuries-long battle while the rest of the world comes unraveled. The Fae Killer is hunting. The peace with monsters is fracturing. Adversary to the Villain

Hannah Nicole Maehrer

The position of “adversary to the villain” has been filled. Evie Sage does not recall applying.

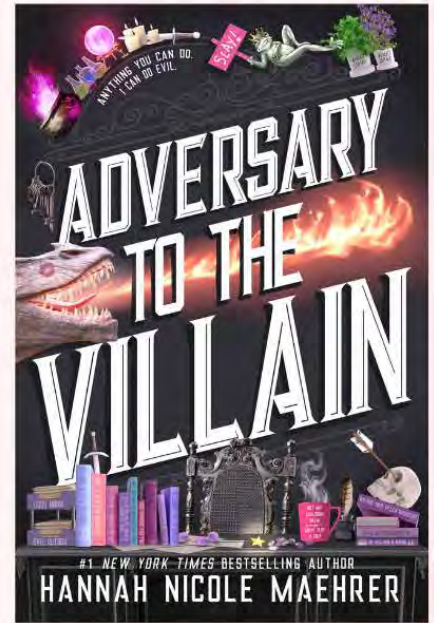

Evie has always tried to be helpful, loyal, and only mildly involved in treason. But with a dangerous prophecy threatening the very magic of Rennedawn—not to mention the race to claim its necessary artifacts before King Benedict does—things are starting to feel...less like a career path and more like a serious problem.

The prophecy won't stop pointing in Evie's direction. The Villain's magic keeps choosing her. And honestly, if you're going to be accused of evil anyway, you might as well commit.

Unfortunately, the more Evie leans into her alleged villain era, the more her boss starts acting like the hero of a completely different story. Trystan is getting closer—closer than is wise, advisable, or even remotely professional—and looking at her like she's already chosen a side. His.

Which is deeply inconvenient, because if Evie can't save the kingdom's magic, she might just become its greatest threat.

The hilarious fantasy romance series doesn't end at Adversary to the Villain! The thrilling conclusion to the series is coming soon!

Hannah Nicole Maehrer is a #1 New York Times bestselling author with a penchant for villains. She's primarily known for the Assistant and the Villain series and secondarily known for using humor to cope at inappropriate times—a strength in her day-to-day writing. Before she was an author, she worked primarily in childcare and teaching emotions management. Ironically, her characters' emotions remain chaotic and unmanageable. Her work tends to mimic her life, which is made up of a very large, very loud, and very loving family, who remain her favorite characters and her primary source of inspiration in fiction. No matter how many years pass, from the time she read her first fairy tale, her passions have remained: romance, joy, laughter, and finding ways to incorporate them in everything she creates. hannahnicolemae.com

Not Good Neighbors

Violet Lumani

Penny Huff and Jack Craig are neighbors by floor plan....and enemies by choice.

Thanks to a tragically thin wall in their NYC apartment building, Penny knows far too much about Jack—like his taste in too-loud music, the noxious fumes from his kitchen, and his habit of suspiciously aggressive vacuuming. And she knows all about the tearful brunette fleeing his apartment the day he moved—the one crying about her cheating ex. Not even Jack’s piratical charm can undo what Penny knows: the man is bad news.

When her attempt to get the wall soundproofed literally blows a hole in it, the two are forced into a DIY disaster that traps them in each other’s lives...and spaces. With eviction looming, prank wars escalating, and unexpected sparks flying, Penny starts to suspect her unsufferable neighbor might just be the plot twist her love life needs.

Packed with witty banter, laugh-out-loud moments, and sizzling tension, this fast-paced romantic comedy proves that love can bloom where drywall—and patience—have crumbled.

Violet Lumani writes romantic comedies with just enough heat to make you want to text your ex (don’t). She has degrees from Barnard College of Columbia University and UCONN and lives in Connecticut with her family.

When she’s not writing, she’s probably plotting global (marketing) domination, rearranging her bookshelves, or spinning chaos into comedy.

Key Selling Points

- **Sharp, Funny Debut Contemporary Romance:** Violet Lumani brings wit, warmth, and genuine comedic timing to a crowded genre—*Not Good Neighbors* is a classic enemies/neighbors-to-lovers story executed with exactly the chaotic energy that makes rom-coms go viral.
- **Irresistible High-Concept Hook:** A DIY disaster that literally blows a hole in the wall between two feuding apartment neighbors, trapping them in each other's lives—confined-space tension and escalating prank wars deliver maximum rom-com entertainment.
- **NYC Setting with Universal Appeal:** A contemporary New York City backdrop gives the book strong visual identity and broad international commercial appeal, particularly in markets with an appetite for aspirational, city-set romance.
- **BookTok-Ready Energy:** Fast-paced dialogue, high-concept setup, and laugh-out-loud chemistry make *Not Good Neighbors* a natural fit for social media discovery and reader community excitement.

Heal the prince. Stay alive. Try not to fall in love.

Vow of Eternal Night is a slow-burn, enemies-to-lovers, gothic romantasy about the lengths people will go to for love, and the many faces monsters can wear.

Lily Crozier has always surrounded herself with books. Born in London into a family of book collectors, she has been a bookseller, BookToker and book publicist. She has a Bachelor in Asia-Pacific Studies and a Master in Publishing and studied in Australia and Japan. When she isn't reading, writing or talking about books, you can often find her playing video games or dreaming up stories about monstrous men.

She lives in Sydney with a book collection that's too big for her apartment and can be found online as @lilycantstopreading. Vow of Eternal Night is her first novel.

Key Selling Points

- **Author Platform That Converts to Sales:** Lily Cozier's background as a bookseller, BookToker, and publicist means built-in industry credibility and an existing reader audience — a concrete asset for foreign publishers evaluating whether a debut author can move copies without a domestic bestseller list placement yet.
- **Commercial Trope Stack, Now Reader-Tested:** Cursed vampire prince, reluctant bride, enemies-to-lovers, gothic atmosphere — these are the exact ingredients driving the current romantasy boom, and the book is now in front of readers to prove the execution lands, not just the concept.
- **Monster Romance Done With Emotional Complexity:** The "beauty and the beast" reversal (Raleigh introduced as the worst of monsters, then complicated) is a strong differentiator within a crowded monster-romance shelf — worth naming specific comp titles buyers already know if you have Editorial's preferred comps.

As a child, Bree Despain wrote stories in notebooks while her friends waited for the next page to be finished. In college, Bree rediscovered this love when she took a semester off college to write and direct plays for at-risk teens. With renewed passion for story, she returned to school and filled her schedule with creative writing classes. But regular life kicked in, and she soon found herself married with a new baby, working full-time, and with very little writing done. That's when the universe threw a pick-up truck in her path. The car accident left Bree with an understanding that life was too short to not do what you absolutely love. A few days later, her husband placed a refurbished laptop at her bedside, and said, "You'd better start writing."

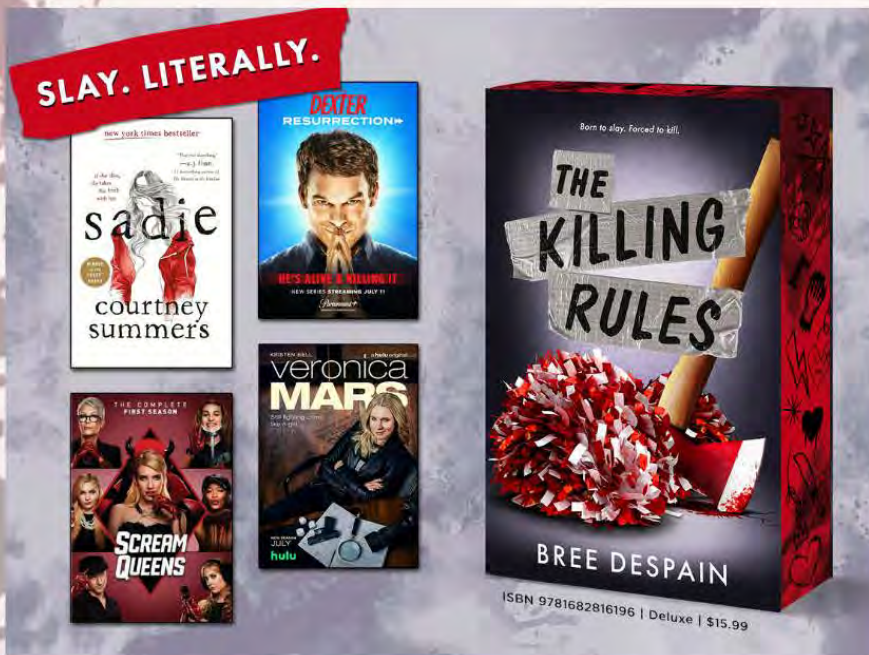

Bree is now an award-winning author of multiple young adult novels, and her books have been published in over twenty countries. She earned her MFA in Writing for Children and Young Adults from Vermont College of Fine Arts. Bree lives in Salt Lake City, Utah with her husband, two sons, three cats, and the world's most adorable dog. She enjoys stand-up paddle boarding, baking French macarons, and researching cults.

The Lost Guardian

Natalia Hernandez

Not all that's lost is forgotten.

The stories we're told aren't myths. They're warnings.

Santiago Rios didn't plan to leave his quiet life in Los Angeles. But when his grandfather sends him a map to the lost tomb of the final Incan emperor, the young archaeologist is thrust into a brutal race across the Andes, pursued by ruthless tomb raiders who will stop at nothing to steal the emperor's treasure.

His only hope is Ali, a fierce Peruvian woman whose secrets could unlock Santiago's map—or spell his doom. The closer they grow, the more certain Santiago becomes. Ali is trouble...just the kind of trouble he likes.

To save their world, Santiago and Ali must solve ancient riddles, outwit deadly enemies, and lay a spirit to rest before it's too late. Because if they fail, the past won't stay buried—and neither will the curse.

Based on the true history of Atahualpa, the last emperor of the Inca people, indie sensation Natalia Hernandez delivers a powerhouse romantasy adventure set in the modern day.

The Wrath Gods Reap

Abigail Owen

The gods took everything from Hades. Now he's coming to collect.

For once, I'm not the mortal condemned to face a series of deadly trials. Hades is.

To reclaim the powers that are rightfully his, the King of the Underworld must compete against the gods of Olympus—and survive a contest designed to bring even immortals to their knees.

I've lost count of how many impossible choices I've survived. I should be relieved to watch from the sidelines. Except the god I love is risking his life with every trial, and someone known only as the Deceiver is determined to destroy Team Underworld.

As ancient deception spreads across Olympus, the foundations begin to fracture from within. Hades and I must expose our hidden enemy before the gods turn against one another—and the world pays the price.

But while Hades battles the gods, I'm fighting to control the power awakening inside me. It's growing stronger. Wilder. And I'm no closer to understanding what it wants from me.

The gods think this is another game.

They're wrong.

This is war—and if anyone tries to take Hades from me, I'll show them what divine wrath really looks like.

Stalkers Anonymous

Dana Leann

Cole Matthews definitely isn't a stalker. Probably.

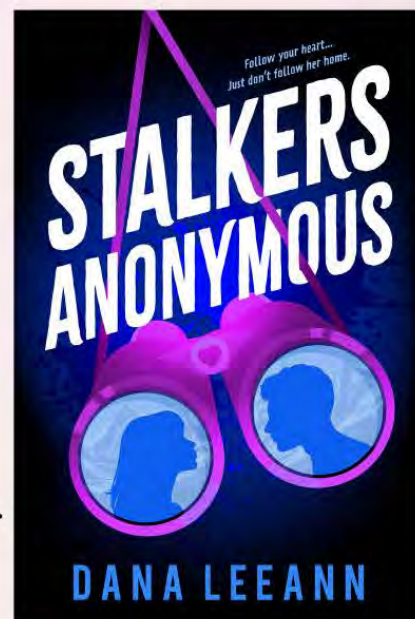

Sure, he used company resources and crossed some lines to “have a conversation” with his sister’s abusive ex. But that was a one-time thing. Now, Cole has to attend a group therapy program with a long, clinical name...but the participants? They call it Stalkers Anonymous.

Hailey Brigham is definitely dating the perfect man. Probably.

She'd love to focus more attention on Cole, the smoking hot, ex-military sweetheart whose idea of a casual second date is tandem skydiving. But a drug-seeking patient at the ER where she's a second-year resident knows too much about Hailey's personal life, and his fixation on her is getting harder to ignore.

When threats against Hailey escalate, Cole's protective instincts go into overdrive. To keep her safe, he would do anything—even if it means becoming the monster he's kept so carefully locked up inside.

Stalkers Anonymous is a dark romance with a morally gray hero, a fierce heroine, and a found family of misfits you won't see coming (unless they want you to).

Dana LeeAnn is an Amazon top 50 best selling author. She lives for the dark side of romance—the stalkier, the better. Dana writes books packed with suspense and questionable love interests that will leave your heart racing through each page turn. When she's not dreaming up new ways to torture her characters (and readers), she can be found in northern Colorado, exploring new hobbies or hiking.

Key Selling Points

- **Kirkus-Endorsed, Genre: Defying Debut in the Series:** *Kirkus Reviews* gave *Stalkers Anonymous* a "GET IT" verdict, praising the book's balancing act across three genres at once saying, "it succeeds as a comedy, a suspenseful thriller, and a romance despite the hero's flaws."
- **Amazon Top 50 Bestselling Author:** Dana LeeAnn has built a devoted readership in dark romance which is a genre that consistently overperforms on BookTok and across international markets.
- **Genre-Bending Positioned for the Current Market:** Romance readers are embracing genre mashups in a big way (cozy x fantasy, contemporary x magical realism, thriller x comedy). *Stalkers Anonymous* fuses dark romance, rom-com, and suspense into one book. Kirkus's own review calls out this exact hybrid as the book's strength.
- **Approachable Entry Point and Insider Payoff:** The premise (a court-mandated support group for stalkers) gives curious readers a lower-stakes gateway into dark romance, while genre veterans get a fresh, self-aware take on familiar tropes—two distinct reader acquisition paths from one title.
- **On-Trend Subgenre, Built-In Discoverability:** Dark romantic comedy with a morally grey, obsessive hero is one of the fastest-growing, most passionate reader communities in adult romance right now.
- **Series Launch: Book 1 of the *Stalkers Anonymous* series:** a concept and cast built for multi-book engagement, giving foreign publishers a reason to acquire the series rather than a standalone.

Who Needs Mistletoe?

Sara Estep

Full of sparkling wit, swoon-worthy romance, and toe-curling heat, *Who Needs Mistletoe?* is a small-town, girl-next-door romance that will wrap your holiday season in big fun and bigger heart.

Ivy Weaver learned the hard way that some confessions are better left unsaid—like the one meant for her longtime crush, Austin, that was accidentally delivered to his older brother, Grant, instead. His brutal reaction made leaving town easy. Staying away for ten years? Even easier. Until now.

When Ivy's parents announce they're leaving Coeur-de-Lac for good, Ivy can't avoid the inevitable. She'll return just long enough to celebrate the Christmas season while packing up her parents' house, and her past, for good.

Grant Underwood has spent his life doing exactly what was expected of him—taking over the family business, keeping everything running smoothly, never making the same mistake twice. But when Ivy comes back to town, he sees a second chance he didn't think he'd get.

The problem? Ivy has spent the past decade thinking she was in love with the wrong brother.

Between a chaotic family holiday, Austin's sudden interest in Ivy, and one extremely mischievous orange cat, Grant is running out of time before the Christmas season ends and he loses his chance to prove the boy Ivy once loved isn't the man she was meant to end up with.

It's going to take more than mistletoe to seal this love story with a kiss.

Dark Horse

C.R. Jane

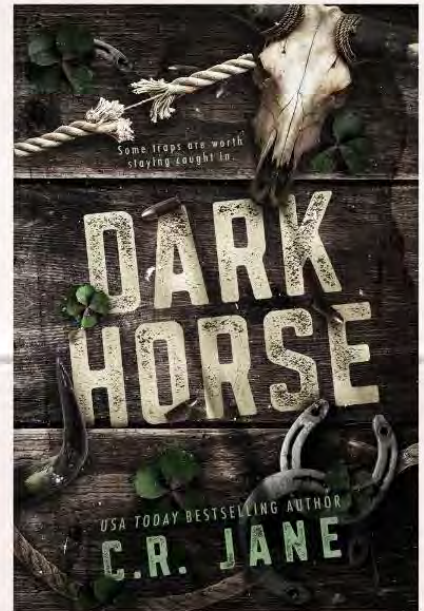

After her messy divorce, Sienna Blake is done with men. She's trading her broken past for a sun-drenched future in California—until her car mysteriously breaks down in the rugged, untamed town of Blackwood, Montana. Stranded, frustrated, and dangerously low on caffeine, the last thing she needs is the town's most aggravatingly hot rancher offering to help—especially when he looks like trouble in a cowboy hat.

Sterling Hayes didn't build his empire by letting go of what he wants—and the moment he sees Sienna, he knows she's his. She just doesn't know it yet. So he does what any reasonable, wildly unhinged cowboy would do—steals a few critical car parts, ensuring she has no choice but to stay. He's got one month to convince her that Blackwood is exactly where she belongs—preferably wrapped up in his sheets, wearing nothing but his flannel.

But Sienna isn't an easy catch. She's stubborn, independent, and way too smart for his dirty cowboy tricks. Between accidentally flashing the town during a wardrobe malfunction, an unfortunate drunk bet involving a mechanical bull, and a series of disastrous attempts at ranch life—she's determined to prove she's not falling for him.

Yet Blackwood has bigger problems than a battle of wills between a bullheaded cowboy and the woman who refuses to be wrangled. Someone is hunting women in the Montana wilderness, and when the killer sets his sights on Sienna, Sterling will have to do more than steal car parts to keep her. He'll have to kill for her.

Will Sienna escape Blackwood, or will she realize some traps are worth staying caught in?

The Throwaways

Greta Kelly

The Calloway women are notorious for three things: Olympic-level banter, an inexplicable fear of dolls, and secrets.

And one of these things is going to get them killed.

Aster Calloway only sold her grandmother's Fabergé music box on eBay to finance her mom's mayoral campaign. It's not like Poppy Calloway has any real business running for office, but the only other candidate is her book-banning high school nemesis—and she's in the lead. But what Aster doesn't realize is that selling the heirloom has toppled the house of lies her grandmother, Iris, has been living in for the past forty years.

Because hidden inside that jewel-encrusted music box was a list of names—names that protected defected KGB operative Iris, her daughter, and her granddaughter. Now the list is gone, and a creepy doll is on Poppy's doorstep, which can only mean that the list is in play...and the three most dangerous spies in the world are on the hunt:

The one who broke Iris's heart.

The one who gave her Poppy.

And the one who wants all the other spies, and especially those bickering Calloway women, dead.

- **Irresistible High-Concept Comp:** The book is being positioned as “*Gilmore Girls* meets *The Americans*” — a razor-sharp, instantly-understandable comp that signals both the mother-daughter/family banter and the Cold War espionage stakes in a single pitch, making it an easy sell to buyers and readers alike.
- **Multi-Generational Storytelling Meets a Hot Market Trend:** Grandmother-mother-daughter dynamics have become a proven commercial driver across recent breakout fiction and TV (from *Crazy Rich Asians*-style family sagas to prestige adaptations like *The Americans* itself), and *The Throwaways* taps directly into that appetite by using three generations of Calloway women—and the decades-old secrets between them—as the engine of both its comedy and its espionage plot.

The Golden Huntress

Katherine Quinn

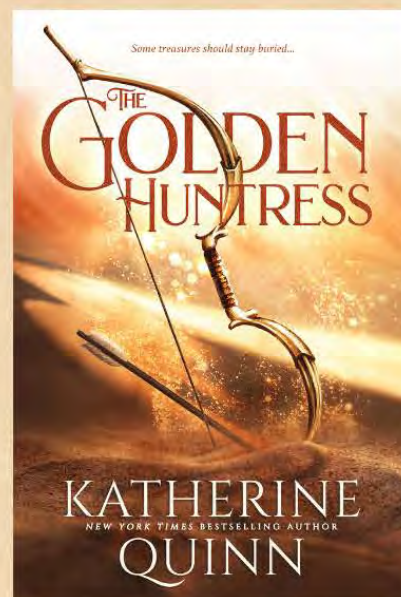

Charlie Pierce was born to hunt the relics of dead gods. Jack Slade was sent to hunt her.

Charlie Pierce doesn't want to die. Just beyond the mortal border of her home, the Spiritwoods have claimed so many lives: her father, her boyfriend, Noah, and countless other Collectors who went searching for the dead Celestials' unspeakable power. But it's her rightful turn to join the annual Hunt—entering the Spiritwoods, where the Collectors' Society will determine her worth—and she refuses to back down. Not when it's the only way to get answers about the ones she's lost.

Jack Slade has a mission of his own—kill Charlotte Pierce before she puts together the pieces of a puzzle that could ruin his family completely. No one will question another heir lost to the Hunt. That's what his father says, at least.

When a violent storm scatters this year's initiates across the Spiritwoods, Charlie and Jack are forced into an unlikely alliance to find a Celestial vessel and escape the ever-changing realm of the gods before it's too late. But as they venture across deadly, magical terrain, the line between enemy and ally begins to blur. Charlie realizes that Jack isn't who she always believed...

And neither is she.

Katherine Quinn is an adult and young adult fantasy romance author. She graduated from the University of Central Florida with a degree in psychology. She resides in Houston with her husband and children.

Her love for writing began after reading her first fantasy series, *Song of the Lioness*, by Tamora Pierce. After that, she wanted nothing more than to be a dagger-wielding heroine. Unfortunately, it's frowned upon to give a child a dagger, so she settled on writing about daring adventures instead.

Coffee is her true love, and she believes anything can be fixed with Starbucks and dark humor.

Key Selling Points

- **Proven Multi-Title NYT Bestseller Track Record:** Katherine Quinn has landed New York Times bestseller status with multiple titles, including *To Kill a Shadow* and *To Shatter the Night* — the latter debuting at #2 its first week — demonstrating that her success isn't a one-off but a repeatable, growing readership that Entangled can point to as evidence of reliable sell-through for *Golden Huntress*.
- **Irresistible Comp Titles:** Publisher copy positions the book as *What the River Knows* meets *The Mummy* — pairing a beloved romantic-adventure comp with treasure-hunting, ancient-relic intrigue that broadens the book's appeal beyond core fantasy readers.
- **Enemies-to-Lovers, Rival-Families Hook:** The dual leads, Charlie and Jack, are heirs to rival "Collector" families thrown together on a dangerous relic hunt — a classic, high-conversion enemies-to-lovers setup layered onto fresh treasure-hunting/mythology worldbuilding.
- **Built-In Duology Structure:** *Golden Huntress* is the first of a two-book duology, giving retailers and readers a clear, complete-arc commitment (lower risk than an open-ended series) while still creating a guaranteed second-title purchase.
- **Early Blurb Traction:** Advance praise already describes the book as "a pulse-pounding adventure filled with sharp twists, ruthless rivalry, and aching romance," reinforcing the commercial appeal of the central rivalry-romance dynamic.

Necromancy and the Art of Hero Killing

Kat Hillis

Immortal necromancer Hawthorne has been locked in a battle with the Hero Reborn for as long as he can remember. Every time this false hero is reincarnated, they rise up to dash Hawthorne's attempts at world domination.

At least, that's how it used to be.

After Attempt Twelve, Hawthorne decided on a different approach. He put his ambitions on hold and settled down to a quiet life in the mountains, tending to his garden and caring for the skeletal creatures who follow him home.

But the Hero is back. And it's time for Hawthorne to begin again.

He's certain Attempt Thirteen will be different. Instead of gathering an army of the undead, he'll use living assassins to bring down the Hero. But when Hawthorne descends from his mountain, he's surprised to learn that no one remembers him. Instead of fearing him, as they ought, they stare and hold up strange, rectangular machines. To his dismay, "mercenary" hasn't been a legitimate career in centuries. Kids today all want to be artificers—a highly overrated trade, in Hawthorne's opinion. If he wants assassins, he'll have to train them himself.

Concealing his identity, nerdy Hero Jemison joins the necromancer's ragtag band of novices, planning to learn his enemy's weaknesses and bring him down from the inside. Only, he's surprised to discover that Hawthorne isn't as evil as he thought. In fact, he's charming, caring, and...attractive?

Worse still, his vision for the world undead isn't half bad. As the two get closer, the Hero Reborn struggles against fate, cardio, and growing feelings for his greatest enemy.

Is it their destiny to destroy one another or can they break the cycle they've been locked in for centuries and find happiness together?

Kat Hillis is an author of queer speculative fiction full of silly jokes and twisty plots. A southerner now living in Alabama, she's a lifelong fan of magic, slow-burn romance, and puns. When she's not writing or reading, she's gaming, drawing, or making handcrafted soaps.

Key Selling Points

- **Villain protagonist you actually root for:** An immortal necromancer swaps world domination for gardening and skeletal pets, then has to become the "bad guy" again just as he's falling for the hero sent to kill him. Subverts the genre's usual hero/villain dynamic in a way that's driving a lot of romantasy buzz right now.
- **Enemies-to-lovers with an undercover twist:** The Hero Reborn infiltrates Hawthorne's training academy in disguise to learn his weaknesses, only to discover the "villain" is charming, caring, and disarmingly attractive. Classic slow-burn tension with a fresh setup.
- **Cozy fantasy with real comedic bite:** Skeletal garden pets, an immortal baffled by smartphones and the "overrated" artificer trade, and cardio as a legitimate romantic obstacle. Signals humor-forward, low-stakes-high-charm cozy fantasy rather than grimdark.
- **Fated-cycle stakes without the fated-mates fatigue:** Centuries of reincarnation and repeated battles give the "destroy each other or break the cycle" romance mythic weight and a satisfying curse-breaking arc, with clear series potential.
- **Built-in comp appeal:** Villain-you-love-anyway hook markets directly to *Assistant to the Villain* fans, while the cozy, low-angst charm gives it crossover reach into the *Legends & Lattes* cozy-fantasy audience.

Six Bullets and a Crown

Alexis Calder

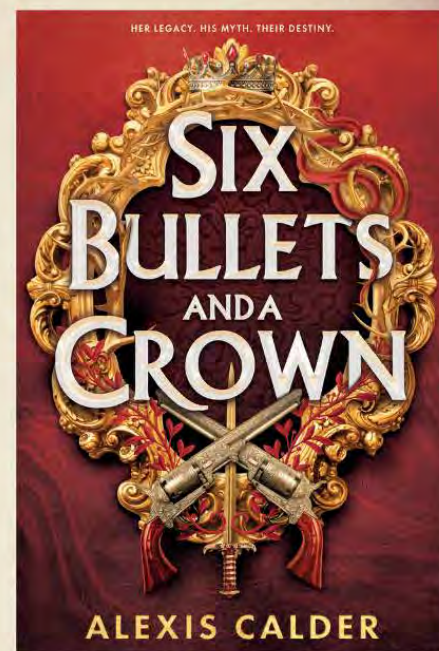

In a city built on the bones of a dead god, beware of digging too deep.

Ever Kaid's father is missing—kidnapped by a dangerous cult that believes he holds the key to resurrecting their god. To save him, and stop a ritual that would destroy the desert oasis of Serpent City, Ever must solve the clues her father left behind and find the hidden artifact the cult covets. But Ever isn't the only one after the crown.

Ford Sterling is a legendary gunslinger. With god-touched revolvers and a reputation for brutality, he's been hired to stop the cult's deadly agenda. But the very magic that makes Ford invincible may also spell his demise—if the secrets he's keeping from Ever don't kill him first.

In a race against time, Ever and Ford will have to leap before they look, trust in the face of betrayal, and persist against impossible odds. Their failure will doom Serpent City. But their triumph will come at a cost neither expects to pay.

Raiders of the Lost Ark meets *Crescent City* in a fast-paced, Western-inspired romantasy full of adventure, banter, and magic.

Alexis Calder is a fantasy author who thinks everything is better with magic. She's a former high school art and history teacher and she still geeks out over learning new things. When she's not writing, Alexis enjoys reading, traveling, and spending time outdoors. She loves music and has a playlist for every mood. Alexis lives in Colorado with her family.

Key Selling Points

- A high-concept adventure-romance mashup built for buzz: "*Raiders of the Lost Ark* meets *Crescent City*" is an instantly pitchable mashup of swashbuckling treasure-hunt adventure and sexy, high-magic romantasy, built to travel across territories the way *Fourth Wing* did.
- Publisher's lead 2027 title, positioned as the next breakout: Entangled is putting its full weight behind this as the next *Fourth Wing*-level phenomenon, giving territories a first-mover advantage on what's positioned to be one of the biggest romantasy launches of the year.
- A bold, unclaimed setting: Western-inspired romantasy: God-touched gunslingers, desert oasis cities, and bone-god mythology carve out fresh worldbuilding territory nobody else owns right now. It's a genre mashup (Western + romantasy) with zero direct competition on shelves.
- Race-against-time stakes with epic scope: A missing father, a cult resurrecting a dead god, and a city on the brink of destruction give this the ticking-clock urgency and world-ending stakes that made *Fourth Wing*'s plot so binge-able.
- Swoony enemies-adjacent romance with secrets and sacrifice: A legendary, brutal gunslinger with god-touched power and secrets he's hiding from the heroine he's falling for: banter, betrayal, and a cost "neither expects to pay" hits the emotional gut-punch beats romantasy readers are chasing post-*Fourth Wing*.

A Southern Fried Deal with the Fae

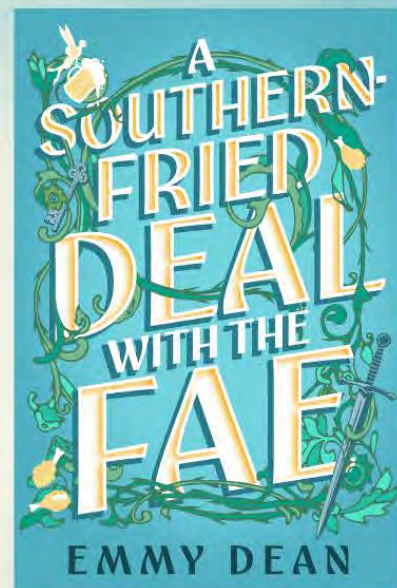

Emmy Dean

When a human woman and her playboy fae fiancé hatch a plot to outsmart the wily fae king, their adventure gets more complicated—and steamier—than either anticipated, in this cozy romantasy debut from Emmy Dean.

Vivian Graves is stuck something fierce. There's no escaping her small southern hometown, or the residents there who have unfairly labeled her the town tramp, or the poverty that's chasing her family into a bottomless pit of debt.

Enter the fae marriage auction, where Viv hopes to match with an ultra-wealthy common fae—someone who'll treat her real nice and support her family financially until the end of time. Instead, Viv is snatched up by the king of fae realm Ercadia, as a bride for his wayward son, Prince Solan. But when Solan reveals he views monogamy as a terminal disease, he and Viv hatch a plot to guarantee she goes back home filthy rich—and he remains a bachelor for life.

All they have to do is adventure across Ercadia on a perilous quest for the sly king, and somehow avoid the heat flaring hotter than dragon fire between them. Viv will need all her wits and sweet-tea charm to survive, but there may be no such thing as coming out on top when you make a deal with the fae.

Emmy Dean is a corporate accounting runaway living with her husband, two children, and cats in New England. She enjoys writing humor-filled stories of healing and romance. She wants her readers to laugh more than they cry, and close her books feeling that their worth is limitless and undefinable.

Rival & Main

Melanie Harlow

Yasmine and Ripley go head-to-head in a battle of the bars, but their competition gets complicated when winning could mean losing each other, in this sweet and spicy second installment in Melanie Harlow's Hart's Landing series.

Yasmine Khoury has been putting up with Ripley Wilder's antics since third grade—long before her elegant wine bar went in next door to his rowdy brew pub on Main Street.

But when they both set their sights on developing the building's rooftop, the gloves come off. A mixup at Town Hall makes it unclear exactly who has the better claim to the space, so Ripley proposes a solution: let the people of Hart's Landing decide.

The competition will push their creativity—and longtime rivalry—to the limit. But with a string of thefts putting the town on edge, an unexpected appearance by Yasmine's trouble-making sister, and a long-held secret simmering between Rip and Yaz, the pressure to win explodes into something neither of them expected.

When their sizzling chemistry finally combusts, the rooftop space isn't the only thing on the line. Yasmine and Ripley stand to lose a far more precious prize: their hearts.

Return to Hart's Landing in RIVAL & MAIN, a steamy, rivals-to-lovers romance full of found family, sparkling banter, and small-town mystery.

Poison Heart

Tegan Cassell

In Tegan Cassell's lush debut, magic, rebellion, and forbidden love collide when a governor's daughter turned pirate risks her life—and heart—to save a dying world.

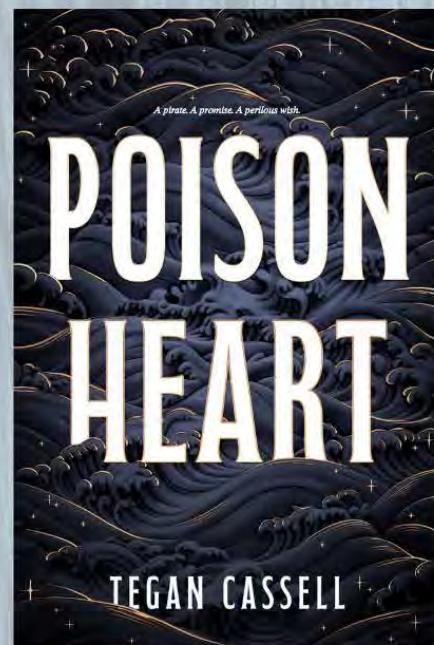

Vivienne Hawthorne is living a double life. The first as Hawk, the bold young pirate who makes a living robbing trade ships in the dead of night. The second as the docile daughter of Blackburn's brutal governor, engaged to a prince with a wandering eye and a penchant for cruelty.

Escaping her father—and impending marriage—won't be easy. The governor has caught Vivienne every time she's fled, and would sooner see her dead than let her tarnish his name. Vivienne needs a miracle—and thinks she can obtain one from the Sea Goddess Musa.

Legend says that Musa will grant three wishes to whoever finds the secret isle of Ella Nova. The map is in three pieces, but Vivienne already has the first. Or she did, until a rival pirate stole it out from under her nose.

Enter Atlas Quinn, the devilishly handsome captain of the Golden Bones. For him, the wishes mean freedom—and more importantly, a cure for his younger sister, who is dying of a mysterious plague that haunts the slums of Blackburn. There is nothing Atlas wouldn't do to save her, even if it means teaming up with Vivienne and splitting the wishes when they reach Ella Nova.

Vivienne doesn't want to trust Atlas. She doesn't want to board his ship, befriend his motley crew, or help him navigate the perilous Dead Sea. She especially doesn't want to like the man. But their growing attraction is just another problem to add to Vivienne's list. Because all is not as it seems in Blackburn, and Vivienne's father is keeping a deadly secret—one that will rock the very foundations of the kingdom.

Garden of Venom

A.K. Lim

She's the king's false angel of death—until the enemy prince she's meant to ruin becomes the one thing she can't bear to lose.

Seventeen-year-old Amara is both angel and executioner. Marked by a gift from the divine to swiftly and painlessly kill anyone she touches, she's committed to a lifetime as the Gafyan King's priestess—offering “mercy” to his enemies. In public, she's all-powerful, but the truth lies in the shadows of her temple, in the poisons and inks she's used to feign her so-called divinity. To be found out would mean death, or worse, losing her luxurious position.

When her latest victim turns out to be a young boy from their enemy country, Corstir, Amara's long-buried morals resurface, and she takes a risk in faking the boy's death. All goes smoothly until a note appears in her room, threatening to reveal her secret if she doesn't help negotiate peace between Corstir and the Gafyan king—just as the Corstir prince himself arrives at her courts.

Corstir Prince Taliesin has made a name for himself on the battlefield, fending off Gafyan invasion on his kingdom's behalf. But with his father on his deathbed and murmurings of a coup on the horizon, he can't keep playing soldier. To squash the uprising and save his kingdom from ruin, he must travel to the heart of his enemy's lands and make a case for peace.

Certain the newly arrived Corstir prince is involved in her blackmail, Amara resolves to ruin him before he ruins her. She finds plenty of weaknesses to exploit: he's clumsy with his words, uncomfortably honest, and woefully out of his depth in the cut-throat court. But as their time together continues, she can't help but see other things, too: kindness, and a smile that could melt snowcaps.

But this is Gafya, and here, love only means more to lose—especially love with the Corstir Prince.

Tournament of Broken Hearts

Lyssa Mia Smith

Ladies, is it toxic if your ex throws you into a death tournament with all of his other exes? What if he's hot, emotionally unstable, and convinced he's saving the realm: do we forgive him, or no?

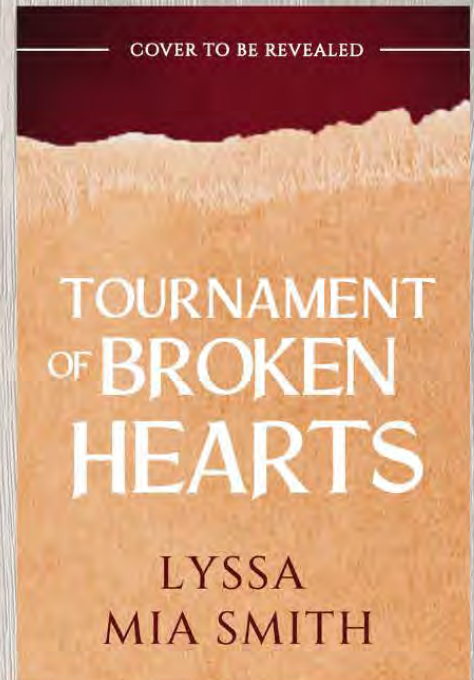

Bria Renhaven swore she'd never waste another moment on Prince Trey Thorngrove. As usual, he has other plans.

According to a fanatical religious cult, the Muse of Death has chosen Trey's former lovers for a deadly competition. First come humiliating public spectacles. Then one-on-one fights to the death. The last woman standing will earn the Muse's blessing and save Lyrielle from the war threatening to destroy it.

Bria's a dancer, not a fighter. But she knows Trey better than anyone, and she knows exactly how to get under his skin. So instead of playing by the cults' rules, she'll expose their lies, protect the other contestants, and wield every charm in her arsenal to get through to the man she once loved.

Unfortunately, getting close to the prince means sweet-talking her way past the ruthless warrior assigned to keep her in line—and Deegan is proving hard to charm and even harder to ignore.

If Bria can't uncover the truth behind the Tournament of Broken Hearts, she and the other exes won't just die—they'll doom Lyrielle to the same fate.

Oath of the Outcast

Aurora Ascher

Are you ready to re-enter the world of the Elementals?

Malaikah knows three things for certain: she's an Earth Elemental, a total badass, and the star acrobat of Salizar's Magical Travelling Circus. But when a near-fatal fall reveals her earth magic is failing, she's forced to confront the legacy she's spent fifty years trying to outrun—and the truth behind her parents' brutal murders.

Salizar has always embraced his reputation as an asshole. It's how he keeps his people safe. But after the events that changed his circus forever, an ominous summons draws him back to the Air Kingdom, where deadly politics, buried secrets, and old loyalties threaten everything he's built.

Together, the ringmaster and the acrobat strike a dangerous bargain: he'll help Malaikah uncover the lost secrets of her magic, and she'll make sure he survives the kingdom determined to destroy him. But as undeniable attraction turns into something far more dangerous, they'll discover that the greatest threat isn't the enemies waiting for them at court—it's the truth that could unravel everything they thought they knew about themselves...and each other.

Call Me Captain

Sue Grace

When a type-A commercial airline pilot and his free-spirited rival compete for the same prestigious promotion, their cutthroat rivalry gives way to an illicit affair that could send them both into a tailspin.

Captain Keith Reyes is the human equivalent of a pre-flight checklist: precise, solitary, and determined to secure the Chief Captaincy of Stellar Airlines' prestigious Tokyo route. Captain Victor Vargas couldn't be more different—he's unserious, carefree, and flies like he can do it blindfolded. The only thing he has in common with Keith? Victor wants that Tokyo route.

When the airline can't pick between the two, they're forced into a competition for the seat. But as they co-pilot the same jet for ninety days, their cutthroat competition quickly depressurizes into a blistering, illicit affair. Trapped between secret hookups and mid-air emergencies, they discover they fly better together than apart. But with only one Captain's seat available, they must calculate the impossible choice: sacrifice the dream job to keep the man they love, or face separation when the evaluation ends.

But when her brother, the prince is assassinated, Kami is thrust into life as the new heir. With duties she wasn't prepared for, and a deadly immortal army encroaching their lands, Kami is forced to uphold her brother's marriage arrangement to the daughter of their enemy.

Princess Alizandra of Haar is as clever as she is beautiful, and her pacifist ways never cease to get under Kami's skin, especially considering it's Haar's trade restrictions that keep the Keltoi people in perpetual shortage of water and grain. Kami's always dreamed of facing the Haars on the battlefield but now she must forge a political alliance instead—a marriage is the best way to unite their kingdoms so they can better protect their people from the ruthless immortals and their deadly water-weaving powers.

Forced together, Kami and Alizandra attempt to put their differences aside and work with each other to stop the immortals. Despite the surprising attraction that grows between them, Kami and Alizandra both still hide a secret: they want the other one dead. The truth comes to the surface when they foil each other's attempts to kill one another, inciting a series of treacherous plots that lead them down the imminent path to war with the immortals. Isabelle Martinsen

One of Us Is Lying meets the revenge-horror edge of *There's Someone Inside Your House*. When a teen girl loses her journal at school, and the people she had written about start getting brutally murdered in ways reflecting how they mistreated her, she must race against the clock to figure out who her unwanted vigilante is and stop them before everyone on her accidental “diary hit list” dies.

Nadia Holt has always believed in karma, but she can't figure out why the universe has it out for her. Her diary is full of tales of a teenage girl who can't seem to catch a break, but when that diary goes missing and the people she wrote about start getting murdered in ways reflecting how they mistreated her, her world gets flipped upside down. The killer claims to be an embodiment of good karma for Nadia and wishes to rid her life of all the negativity. They vow to be her ally and friend if Nadia keeps their secret. If she doesn't, there will be deadly consequences.

While Nadia sleuths to figure out who might have the motive to murder in her honor, she must balance the grief of the anniversary of her mother's death, loads of friend group drama, and a sprinkle of boy trouble on top of the nightmare she's living. As the murders become more gruesome and the killer grows more insistent on their alliance, she has no choice but to risk everything to outwit them—especially since the final entry in her diary is about her crush.

The Bone Singer

Abigail Owen

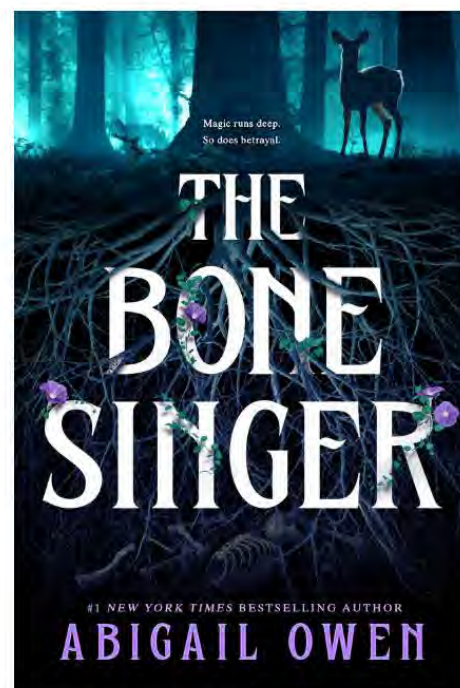

The dead chose her. Now she has to figure out why. Thalia Cross has spent eighteen years perfecting invisibility. Homeschooled on a mountain, warned away from town, kept just separate enough from everyone that loneliness became a personality trait. Her grandfather calls it protection. She calls it Thursday. Then her therapist disappears into the Colorado wilderness, and Thalia follows a dead woman's voice into the dark.

What she finds in that clearing strips away every careful rule she's lived by: her therapist's bones arranged with unnerving precision, bleached white as if from centuries of sun. Before she can run, she slams straight into eighteen-year-old Bram Wilder, the sheriff's son and her longtime crush, two days from his first shift as a deputy, and apparently the universe's preferred instrument of her humiliation. He turned down a full ride to Stanford to stay in this town, and nobody seems to know why. He arrests her. She almost respects it. But something far worse than a murder charge is circling Wilder, Colorado, and Thalia can't outrun it alone. Pulled toward two other girls she has no reason to trust, she's starting to understand that her grandfather's rules weren't about keeping her safe. They were about keeping her quiet. About keeping her from discovering exactly what she is.

Because something ancient is sealed in these mountains. It has been waiting a very long time. And the dead, who have always been the only honest voices in Wilder, keep whispering the same thing.

Her name.

The Inheritance Games meets *Caraval* in this propulsive, gothic, slow-burn thriller that will wreck your sleep schedule completely.
